Prin amplasarea **corpurilor de iluminat** potrivite, orice spațiu din încăperea se transformă într-o oază de **confort și intimitate**. Lumina vă poate ajuta să direcționați atenția către zonele cheie ale încăperii și să definiți stilul de amenajare ales.

Dacă vă plac abordările **moderne** și vă doriți să creați un spațiu plin de personalitate, original și creativ, vă recomandăm să alegeți **corpurile de iluminat** care excelează la capitolul estetic. Fie că preferați simplitatea stilului **scandinav**, duritatea stilului **industrial** sau vibe-ul cosmopolit al amenajărilor **urbane**, avem soluțiile **perfecte pentru dumneavoastră**.

Vă punem la dispoziție o varietate de **produse cu un design contemporan**, în diverse modele, culori și finisaje, pentru a satisface chiar și cele mai exigente cerințe.

Astfel, dacă sunteți în căutarea unor **corpuri de iluminat moderne, versatile**, care pot transforma orice zonă în tendințe, vă invităm să descoperiți cele **7 colecții** unice din categoria **Klausen Modern**.

By installing **the right lighting solutions**, any room can turn into a **comfortable, intimate space**. Lighting can help you draw attention to the key areas of the room, create the right ambiance and outline the interior design style you have chosen.

If you're into **modern** approaches and wish to create an original, creative space, with a personal touch, go for lighting systems that match that aesthetic. Whether you prefer the simplicity of the **scandinavian style**, the toughness of the **industrial style**, or the cosmopolitan **urban style**, we've got the **perfect solutions for you!**

We provide a variety of **products with a contemporary design**, in different patterns, colors and finishes, to please even the most demanding requests of our customers.

Therefore, if you're looking for **modern and versatile lighting fixtures**, that can add a trendy touch to your interiors, it's time to explore the **7 unique collections** available in the **Klausen Modern** category.

G/F

Clasele energetice, conform noilor reglementări, pentru corpuri de iluminat cu sursa inclusă și care nu poate fi înlocuită fără distrugerea corpului, sunt de la A la G. Litera indică încadrarea produsului într-o clasă energetică.

The new energy classes, according to the new regulations, concerns luminaires where the light source cannot be removed without destroying it, and ranges from A to G. The letter indicates the product's energy class.

SEMNIFICAȚIA GRADELOR DE PROTECȚIE / THE SIGNIFICANCE OF IP PROTECTION DEGREES

Protecția corpurilor de iluminat la pătrunderea particulelor solide și a umidității este exprimată în grade IP. Prima cifră corespunde gradului de protecție la particule solide, a doua la protecția împotriva apei/umidității, conform datelor de mai jos:

Prima cifră IP/First IP digit:

IP 2_ Protejat contra pătrunderii corpurilor solide mai mari de 12 mm.
Protected against the ingress of solid bodies larger than 12 mm.

IP 4_ Protejat contra pătrunderii corpurilor solide mai mari de 1 mm.
Protected against the ingress of solid bodies larger than 1 mm.

IP 5_ Protejat contra pătrunderii prafului fără presiune.
Protected against the ingress of dust without pressure.

IP 6_ Protejat total contra pătrunderii prafului.
Completely protected against the ingress of dust.

The protection of lighting fixtures against ingress of solid foreign objects and against harmful ingress of water/moisture is expressed by IP degrees of protection. The first digit shows the degree of protection against solid particles, the second digit indicates the extent of protection against water/moisture. Please consult the information below:

A doua cifră IP/Second IP digit:

IP _1 Protejat la picăturile de apă care cad vertical (condens).
Protected against vertically falling drops of water (condensation).

IP _4 Protejat contra stropilor de apă care ajung din orice direcție.
Protected against water drops splashing from any direction.

IP _5 Protejat împotriva jeturilor de apă din toate direcțiile, cu presiune egală cu 0,3 bari.
Protected against water jets from any direction, with pressure equal to 0.3 bar.
